

Mentee LinkedIn Diary End of Module Posts

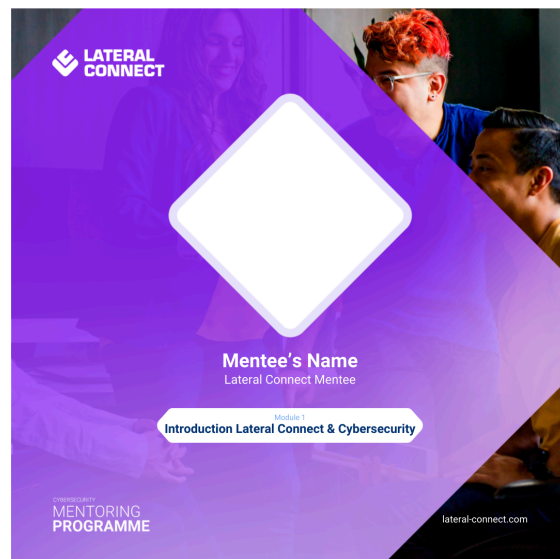

Details and Guidelines

Thank you for choosing Lateral Connect to supercharge your cybersecurity career! We hope you are looking forward to embarking on this journey, or enjoying your experience so far if you have already started.

To help with exposure for Lateral Connect and encourage others to take the leap into a cybersecurity career or reskill course, we would greatly appreciate it if you would be able to participate in our Mentee LinkedIn Diary scheme. We believe this will not only help Lateral Connect and the wider community, but also allow you to reflect on your learnings and achievements throughout the programme.

How To Participate:

1. Write a post chronicling what you've learned/experienced during each module and how you're feeling about it.
 - a. Example guidelines below, but feel free to write in your own tone of voice that is authentic to your personality.
2. Provide a professional photo (with a smartly dressed outfit that is not casual wear) to our team so we can create your Lateral Connect Mentee visual tile.
3. Designs provided per module should be used and a statement per module, please work with your mentor if you need support.
 - a. Example Visual:

4. Submit the content to your mentor for review before posting on LinkedIn.
5. Take a screenshot of the post and submit it to the course. Please note that you will not be able to continue to the next module until the screenshot of the post has been submitted online.

Example Structure

Hello LinkedIn,

<50 words about how you decided to join Lateral Connect and what course you are taking + mentoring programme. Mainly important for the first post in the series, and can be reduced for later fortnightly updates.>

<50-100 words about your learnings and experiences over the past 2 weeks, and a reflection on how you feel about it.>

Example 1:

Risk Management Principles

Over the past two weeks, I've delved into new challenges and embraced learning and growth opportunities.

I've honed my skills in Risk Management by understanding the principles of risk

management in cybersecurity.

What I've learned so far is what an asset, a vulnerability, a threat and finally a risk are.

An asset is valuable, a vulnerability is a weakness, a threat is a potential danger, and a risk is the chance that a threat will exploit a vulnerability, causing harm to a company.

This journey has been exhilarating and humbling, reinforcing my passion for continuous learning and adaptability.

Feeling energised and ready for the next steps in my learning adventure!

Thank you @Lateral Connect for this opportunity and all your amazing trainers and mentors. Special shoutout to my mentor @Michael T. for his encouragement and support!
